Recommended Practice CCSDS 902.13-M-1
TECHNICAL CORRIGENDUM 1

Issue Date: February 2024

Abstract Event Definition

TECHNICAL CORRIGENDUM 1

The Management Council of the Consultative Committee for Space Data Systems (CCSDS) has authorized the publication of technical corrigendum 1 to CCSDS 902.13-M-1, issued February 2021.

Page 1-1, figure 1-1, replace figure with the following:

Washington, DC, USA
Email: secretariat@mailman.ccsds.org

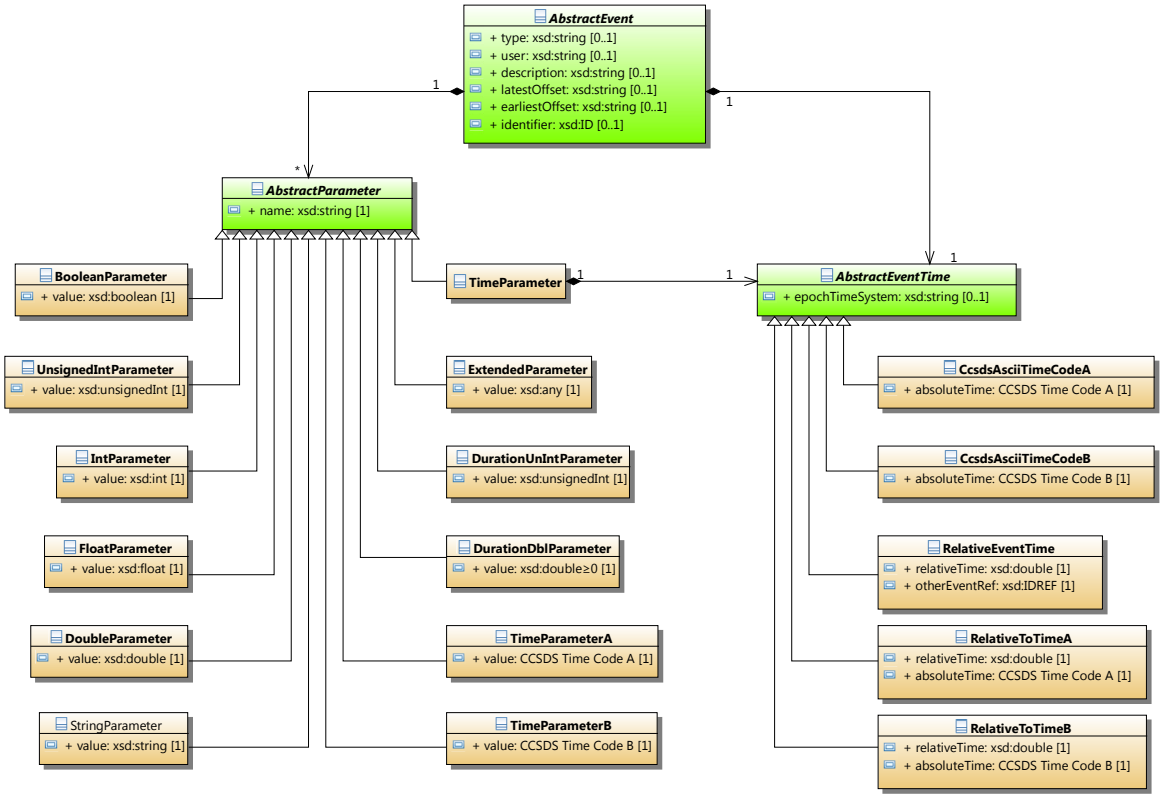
Page 1-2, 1.7.1 THE UNIFIED MODELING LANGUAGE, replace with

The Unified Modeling Language (UML) is a general-purpose developmental modeling language that is intended to provide, in the field of software engineering, a standard way to visualize the design of a system. It supports various diagram types, including class diagrams, package diagrams, sequence diagrams, and activity diagrams. In this document, notation, semantics, and conventions imposed by the Version 2.4.1 UML specification of the Object Management Group (OMG) (reference [2]) are followed.

Within the document, use is made only of class diagrams. A UML class diagram describes the structure of a message, its parts, and how those parts interrelate. A UML class, represented in the diagram as a box, represents a data set. Class diagram conventions include composition, generalization, multiplicity, and constraints. Enumeration notation is also used, but only when it is involved in a composition constraint.

Page 2-1, 2.3 MAPPING TO W3C XML SCHEMA, delete note.

Page 3-1, figure 3-1, replace figure with the following:



Page A-1, A2.2 REGISTRY FOR TYPE PARAMETER, change subsection title

from: "REGISTRY FOR TYPE PARAMETER"

to: "REGISTRY FOR EVENT TYPE PARAMETER"

Page B-1, B2 SCHEMA ORGANIZATION AND PACKAGING, replace subsection text with

B2.1 SANA REGISTRY

The normative Abstract Event schema types and global elements are contained in the file '902x13m01TC1-AED.xsd'.

The source of the following schema file,

– 902x13m01TC1-AED.xsd

is the SANA SCCS-SM Information Entity XML Schemas registry:

https://sanaregistry.org/r/service_management_xml_schemas

B2.2 GITHUB

In addition to the availability of the schema in the SANA registry above, a package containing the schema and any relevant additional schemas and examples can be found in GitHub at the following URL:

https://github.com/CCSDS-CSSM/902Releases/releases/tag/SANA_Release_20240222
